Bridge Farm Barn, Woodhill Road, Sandon, Essex CM2 7SG

**Inspection date**

14 September 2023

**Overall outcome**

**The school meets all of the independent school standards that were checked during this inspection**

## Main inspection findings

### Part 1. Quality of education provided

*Paragraph 2(1)(a), 2(1)(b), 2(1)(b)(i), 2(2), 2(2)(h)*

- This independent school standard (the standard) was not met at the inspection in September 2022 because, as stated in the inspection report, the curriculum vision was not coherent or understood by parents and pupils. The curriculum plans did not extend to key stage 4.
- In the evaluation of the action plan in June 2023, leaders stated that they intended to review the curriculum, but how they were going to do this was not clear enough. It was not clear how they were planning to monitor the development of the new curriculum.
- There is now a complete curriculum for key stage 4. Pupils are working through this curriculum towards recognised qualifications in core subjects. Plans outline clearly what pupils should learn, in what order and how this will be assessed. Staff understand these plans and how to adapt them for individual pupils when needed.
- Leaders have made sure that parents understand what their children are studying through documentation and parent meetings.
- This standard is now met.

### Part 3. Welfare, health and safety of pupils

*Paragraphs 7, 7(a), 7(b), 9, 9(b)*

- This standard was not met at the inspection in September 2022 because policies around behaviour and safeguarding were not being followed. Not all concerns were responded to appropriately. Leaders had not provided appropriate training for staff.
- In the evaluation of the action plan in June 2023, leaders stated that they were going to train all staff appropriately and review the policies. However, it was not clear enough how leaders intended to assure themselves of the quality of training and how well staff would implement leaders' safeguarding policies.
- Many policies have now been updated, including those for behaviour and safeguarding. They now follow government guidelines and meet statutory requirements. All staff have had comprehensive training, including an understanding of how to keep pupils safe if they were to present with challenging or violent behaviour. Staff understand the policies

and follow procedures well.

- Staff record safeguarding concerns in detail and ensure that leaders are quickly notified of any concern. Leaders work closely with local authorities and other services to keep pupils safe. They have made appropriate referrals where needed.
- Staff meet daily to review behaviour and safeguarding incidents. Risk assessments are updated frequently to reflect adjustments to how they support pupils to behave.
- Leaders have developed robust systems to check on staff members' understanding of school systems, particularly safeguarding. Leaders challenge each other's responses to incidents to ensure that no risks to pupils are missed.
- These standards are now met.

*Paragraphs 11, 16, 16(a), 16(b)*

- This standard was not met at the inspection in September 2022 because there was not an up-to-date health and safety policy or appropriate risk assessments.
- In the evaluation of the action plan in June 2023, leaders stated that the policy would be reviewed, staff trained and an audit commissioned by a health and safety expert. However, it was not clear enough how leaders would check on staff's understanding and the implementation of the policy.
- There is now an appropriate health and safety policy in place. Leaders have checked staff's understanding of this. External audits have been put in place.
- Comprehensive risk assessments cover all aspects of the school's work. Individual pupils have their own risks considered closely, for example when going on school trips.
- These standards are now met.

## Part 6. Provision of information

*Paragraph 32(1), 32(1)(b), 32(1)(c), 32(1)(h), 32(3), 32(3)(d), 32(3)(f)*

- This standard was not met at the inspection in September 2022 because leaders had not provided the information required in the standard to parents and the local authorities.
- In the evaluation of the action plan in June 2023, leaders stated that these would be reviewed and provided, although the timescales were too generous.
- All the appropriate information is now readily available on the school's website and provided to local authorities as required.
- This standard is now met.

## Part 7. Manner in which complaints are handled

*Paragraph 33, 33(c)*

- This standard was not met at the inspection in September 2022 because the complaints procedure was not up to date, nor had appropriate timescales.
- In the evaluation of the action plan in June 2023, leaders stated that this would be updated, However, it was not clear how quickly this would be done.
- The complaints policy is now fully updated and available to parents. It is used appropriately and a written log is held.
- This standard is now met.

## Part 8. Quality of leadership in and management of schools

### *Paragraph 34(1), 34(1)(a), 34(1)(b), 34(1)(c)*

- This standard was not met at the inspection in September 2022 because the proprietor had failed to ensure that the standards were met. Key documentation was not readily available or up to date. Staff had not had enough training to ensure that pupils' well-being was upheld.
- The evaluation of the action plan in June 2023 noted that the actions lacked enough detail about how the proprietor would ensure standards were met on an ongoing basis. The timescales were not precise enough.
- The proprietor has ensured that all required documentation and policies are now in place. These documents, and the actions that they outline, are closely matched to the needs of the school and pupils. They provide a clear steer to staff to help them make good decisions in a range of common and novel circumstances.
- Staff have all had substantial training, especially around safeguarding and behaviour management. A well-organised induction programme supports new staff to also develop this knowledge. Leaders check on staff's understanding. They observe practice in the classroom to ensure policies are being implemented correctly.
- The proprietor has begun to make greater use of external advice and challenge to ensure that progress continues. This has helped the school to improve apace. Leaders have an increasingly acute understanding of the quality of the provision and knowledge of 'what works well' for their pupils. Leaders are prepared to listen to challenge and seek support willingly. They are well placed to develop the school in the future.

### Schedule 10 of the Equality Act 2010

- This standard was not met at the inspection in September 2022 because the school did not have an appropriate accessibility plan. The curriculum did not meet the requirements of the Equality Act 2010.
- The evaluation of the action plan in June 2023 noted that the proprietor intended to develop the documentation. However, not enough consideration had gone into what this would look like for the school environment and curriculum.
- The proprietor has ensured that all required documentation and policies are now in place. Staff consider the needs of individuals when planning their lessons.

## **Compliance with regulatory requirements**

The school meets the requirements of the schedule to the Education (Independent School Standards) Regulations 2014 ('the independent school standards') and associated requirements that were checked during this inspection. This included the standards and requirements that the school was judged to not comply with at the previous inspection.
